### **DATAMAX CORPORATION JOINS INTERMEC RFID RAPID START LICENSING PROGRAM**

ORLANDO, FL – September 8, 2005 – Datamax Corporation, a leader and worldwide supplier of bar code labeling and RFID printing solutions, announced today that it has joined Intermec Technologies Corp.’s Rapid Start RFID intellectual property licensing program. The Rapid Start Licensing Program provides Datamax full access to Intermec’s insert, tag, and printer patented RFID technology portfolios, allowing Datamax to manufacture products with the RFID capabilities and functionality that today’s end-users require.

“Joining this program is a further indication of the commitment Datamax has made to our RFID customers, and to Datamax’s continuing investment in developing world class RFID technology solutions,” states Doug Salvador, Vice President of Marketing for Datamax Corporation. “This agreement strengthens our position in the evolving RFID market by allowing us access to these patents for future product development. The end result is that Datamax will continue to provide our customers with reliable and innovative RFID solutions, while addressing the requirements and concerns and opportunities present in this rapidly changing technology market.”

Intermec holds more than 145 RFID patents covering broad areas of UHF supply chain RFID practice and applications. Its patents cover all standards and classes for the international practice of RFID, including Class 0, Class 0+, Class 1, UHF Generation 2, ISO and others. The company’s
